A NEW TIDE

FOR HIGH TRAFFIC FLOORS

PUSHING THE BOUNDARIES OF INNOVATION

Bona Traffic GO – Next generation lacquer for simple performance

BONA TRAFFIC GO

NEXT GENERATION HEAVY WEAR COATINGS

Thanks to a new generation of curing technology, Bona Traffic GO offers an ideal combination of working simplicity, with the heavy-wear durability of a high-end 2K lacquer. The innovative curing technology with built-in hardener marks a significant step forward for simple, effective, and safe wood floor lacquers. Meeting the safety and health requirements of tomorrow – Bona Traffic GO.

- ✓ **SHAKE & GO**
- ✓ **NATURAL & SAFER**
- ✓ **HEAVY WEAR DURABILITY**

SIMPLE AND EFFICIENT

Get 2K performance with the simplicity of 1K curing thanks to the unique built-in hardener - just shake and GO.

SAFE AND NATURAL

Phasing out PFAS and Isocyanate, Bona Traffic GO offers safer and healthier application for tomorrow.

HEAVY WEAR DURABILITY

Just like all Bona Traffic solutions, the Bona Traffic GO is designed for heavy wear durability for highly trafficked areas.

**BUILT-IN
HARDENER**

BUILT-IN HARDENER CREATES A SIMPLIER CURING PROCESS

The built-in hardener found in Bona Traffic GO has a unique self-activated integrated hardener, activated once the product is applied to the wood surface. Curing starts as soon as the lacquer is applied on the

floor. The water leaves the product and creates a web connecting all polyurethane (PU) particles into one large net, creating a more stable system with high resistance against stains, scuffing, and wear.

Polymers with **built-in hardener**

Activates when applied on floor

Hardens into a durable surface
